ABOUT

Benjamin Rifatbegović, or more commonly known as SAHFI, is a music producer and DJ from Sarajevo.

Thanks to his parents, he was introduced to a large variety of musical genres early on in his life. This musical intellect he accumulated over the years is what helped him get into music production. Soon enough he was exposed to House music and fell head over heels in love with it.

In his attempt to find his own style, he has experimented with various genres. Some of them including: House, Nu Disco, Progressive, Tech House, Melodic, EDM, Dubstep, Drum and Bass and others. He has played at numerous popular events and clubs in Sarajevo.
